Developing Jaguar Land Rover Virtual Drive System
360 Degrees Virtual Experience System using Oculus Rift

Kadinche created and developed Jaguar Land Rover's Virtual Drive System using Oculus Rift head mount display. The system will be installed in Jaguar Land Rover's dealer shops all over Japan. Visitors can enjoy viewing 360 degrees as if he/she is inside cars driving around.

Kadinche shot panorama movies of Jaguar and Land Rover's cars in Spain and UK. Kadinche also developed panorama movie viewing application for Oculus Rift. The first two contents are Jaguar XE with a tennis player Mr. Kei Nishikori and Land Rover Discovery Sports with its official driver in UK.

Kadinche is a company in Tokyo Japan doing research and development on virtual reality contents and technology. Kadinche also host a panorama video sharing platform PanoPlaza Movie.
